

The Above Grade Foundation Insulation Solution

Horizon Insulated System

Provides three levels of protection:

- Waterproofing membrane protects insulation at top of foundation wall
- Rigid fiberglass insulation board boasts home's energy efficiency and reduces interior foundation condensation
- Durable, textured topcoat repels moisture and gives foundation an attractive finished look

Why choose Horizon™ for your above grade foundation insulation needs?

- Waterproof design provides an additional defense against moisture intrusion into inside of home
- Greater durability than protectants such as Insul Cap or InsulCrete
- Attractive appearance allows homeowners to keep grade 8" below top of foundation wall without sacrificing curb appeal
- Competitively priced in comparison to alternative forms of above grade insulation protection

Exclusive 30-Year Warranty available when Horizon is Paired with the TUFF-N-DRI® system

Coello & Associates, Inc.

2122 S. West Avenue 262-650-1300
Waukesha, WI 53189 pouredfoundations.com

Horizon provides a durable, textured topcoat that repels moisture and gives the exposed foundation an attractive, finished look.
